

A box plot comparing the distribution of 'model1b' for two groups, labeled 0 and 1. The y-axis represents the values of 'model1b', ranging from -2 to 4. Group 0 is represented by a grey box, and Group 1 is represented by a red box. Individual data points are overlaid on the box plots. Group 0 shows a wider distribution with a median near -0.15, while Group 1 has a median near -0.85 and a more compact distribution.

Group	Median	Q1	Q3	Min	Max
0	-0.15	-0.45	0.45	-1.5	1.6
1	-0.85	-1.05	-0.5	-2.3	0.9
