

The figure displays two side-by-side box plots comparing the distribution of a variable across two categories: 'None' (0) and '1'. The left plot, representing category '0', is shaded gray and shows a wider distribution with many outliers. The right plot, representing category '1', is shaded pink and shows a more concentrated distribution. Both plots have a legend in the top right corner.

Category	Median	Q1	Q3	Min	Max	Outliers
0 (Gray)	~0.45	~0.15	~0.75	~0.05	~0.95	Many outliers below 0.05 and above 0.95
1 (Pink)	~0.45	~0.15	~0.75	~0.05	~0.95	Many outliers below 0.05 and above 0.95

A horizontal number line with tick marks at 0 and 1. A vertical tick mark is drawn at the midpoint, labeled 0.5.
